

Unboxing the Audio Hungary Qualiton A20i Valve Amplifier

07. June 2016 · Write a comment · Categories: Hifi Reviews, Unboxings · Tags: amplifiers, hi fi reviews, hifi reviews, Valve Amplifier, valves

Audio Hungary are a relatively new name to Hifi Pig and we first met them at this year's High End show in Munich where they had their wares on display. This, the Qualiton A20i, is their entry level integrated amplifier. It is very compact, runs 2 x 20 Watts of Class A power and is based on classic push-pull topology.

It arrived, with little help from DPD, in a sturdy double (and surprisingly heavy) boxing, with the amp inside being very well packed indeed. The first thing out the box was the remote...wow, that's heavy and really rather beautiful! Off with the valve cover to expose the tubes and the gleaming chrome body-work and that's it all unboxed.
